GOULD GROUP LEADS IN UPWARD TREND OF PRICES.

PROFESSIONAL BULLS MAKE SUCCESSFUL MOVEMENT.

Business on Wall Street Drops Away to Great Dullness Toward the Closing Hour.

New York, April II .- There was an upward movement of prices to-day, led by the Gould group and Baltimore and Ohio. As other parts of the list came into the movement a disposition became manifest to take profits in the early leaders, which led to a moderate reaction all through the list, and the closing was easy and dull. The movement was attributed largely to professionfil operations, and commission houses continued to complain of the light volume of their orders. It was plain, however, that a speculative party had been organized to advance the market, and the allies made their operations effective to-day. Their campaign seems based on general conditions. They had the advantage to-day of the cheering influence upon sentiment exercised by the modification of the decree against the Northern Securities Company, so far as it referred to enjoining the payment of dividends. The Great Northern dividend came off that stock thus morning, and the assembling of the Northern Pacchic directors during the session of the Stock Exchange gave assurance that that dividend also would be promptly distributed.

GOULDS IN LEAD. profits in the early leaders, which led to a

Speculative operations were especially marked in the Gould group, led by Wabash preferred, and especial stress was laid upon the April report of the Kansss State Board of Agriculture confirming the very favorable Government report as to the condition of winter wheat. The advance in Sugar was on account of the rise in the price of refined product. Southern Pacific was lifted 2 points late in the day on an unconfirmed rumor that a settlement had been effected between the Harriman and Keene interests. Some early heaviness in Amalgamated Copper was accounted for by the illness of the president of the company, but the stock recovered. Colorado Fuel was weak, without explanation.

Reading lagged in the advance on account of the opening of the Interstate Commerce GOULDS IN LEAD.

covered. Colorado Fuel was weak, without explanation.

Reading larged in the advance on account of the opening of the Interstate Commerce hearing of the charges of suppression of competition by the coal combine, but later this stock also became strong. An unusually large number of Industrial stocks were advanced from 1 to 2 points, and beyond that for American Steel Foundry, which gained 3, Sloes Shefflehi Steel 41, Westinghouse Electric 8 and the first preferred 8. The professional contingent among the traders laid some stress upon to-morrow's entry into the new exchange quarters as proper sentimental ground for advancing prices.

vancing prices.

MARKET NEGLECTED.

During the last hour of the market trading was considerably neglected, on account of diversion induiged in by the brokers as an incident to the closing of business in their temporary quarters on the Produce Exchange floor. An incident of the day was the resumption of the recording of transactions in odd lots on the tape. During the boom period of two years ago, in the midst of which the Stock Exchange moved to the temporary quarters now being abandoned, it was found wholly impracticable to keep up with the record of the minor transactions, and since that time only full share lots of 100 shares or some multiple of that have been printed on the tape until to-day. The resumption of odd-share lots in the record must be regarded as a symptom of the reintive duliness to which bu incess in the stock market has falleu. Money continued to work caser, with every prospect of additional relaxation, and the recent upward course of exchange was also checked to-day.

Prices of bonds moved upwards, in sympathy with stocks and on a fairly well distributed demand. Total sales, par value, \$2,119,00. United States bonds were all unchanged on the last call.
